

I am writing this note to let you know what a loss it would be if my community were to lose Air 1 as one of our radio stations. None of our other stations have the type of programming offered by Air 1 and the youth of our community need the positive viewpoint which Air 1 provides in its music. If an LPFM broadcaster is allowed to take the place of the space currently occupied by Air 1, I believe it would be a great loss to our city and the surrounding areas. In an age when our students are bombarded by promiscuous and lewd messages in much of our culture's popular music, Air 1 is a refreshing alternative to encourage our kids to choose healthy and long-lasting values.

Thank you for your time.

Lori Devaney
